“Economic. Reliable. Easy!”

Proof of Delivery

It's easy to keep track of your parcels within the on line Fastway Couriers track and trace site.

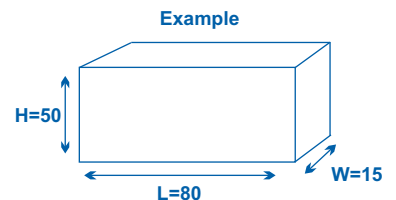

Visit our website at www.fastwaycouriers.co.uk and enter the tracing number from your label.

It's that simple!

Cubing Guide

Courier parcels are charged at the cubic weight, or the dead weight, whichever is the greater. The cubic conversion rate is 167kg per cubic metre. You can calculate the cubic weight of a parcel by following these simple instructions.

1. Convert measurements to metres.
For example
 $H = .50, W = .15, L = .80$
2. Multiply the length x width x height X cubic conversion (167) to get cubic weight.
3. If the actual weight of this parcel was 5 kilograms and the cubic weight is 10 kilograms, the greater weight of 10 kilograms applies.

To assist safe handling the maximum parcel dimensions your Fastway Courier Franchisee can accept are 2.10 m long x 1.05 m wide x 1.05 m high

Timetable

Fastway Courier Franchisees carry timetables which outline the daily cut off times in your location.

Ask your courier for their timetables so you can be sure to have your parcels ready for pick up on time.

Re-ordering

Each Fastway Courier Franchisee keeps stocks of prepaid labels and satchels with them at all times.

Let your courier know when you would like to purchase. An invoice will be written and the labels or satchels provided on receipt of payment.

All freight subject to cubic conversion, 167kg per cubic metre. Maximum 25kg per parcel. Proof of delivery available at www.fastwaycouriers.co.uk (a charge may apply if requesting a hard copy).

All Fastway labels & satchels are not transferable or refundable. Please refer to conditions of carriage on reverse of invoice.

Prices subject to change without notice. Fastway does not accept dangerous goods for carriage.
